QUICK AND EASY DRIVE-IN LOADING.

# FIN LOADING TROLLEY

**Fast loading**

2 seconds per tray

**10 % Energy saving**

up to 500 W per load

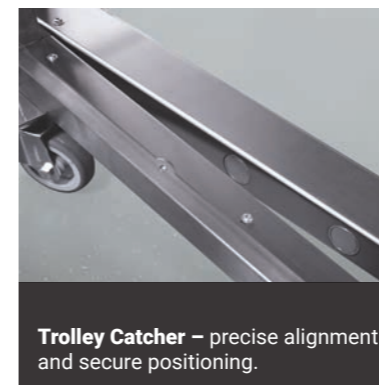

Boost efficiency and comfort with smart loading trolleys designed for professional baking environments. They ensure faster loading to save valuable minutes each cycle, reduce energy loss by keeping the oven open for less time, and enhance safety by minimizing direct tray handling. The ergonomic design also reduces physical strain, making every baking process smoother and more comfortable.

## Main advantages:

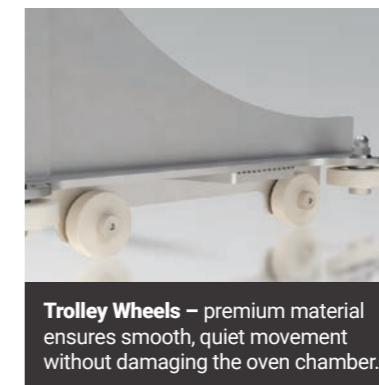

-  Long-life construction
-  Low idle time
-  Human friendly concept
-  Higher output;
-  Easy to handle;
-  Simple to maintain
-  Quiet operation
-  Quicker ROI

single or double unit loading

**Trolley Catcher** – precise alignment and secure positioning.

**Trolley Wheels** – premium material ensures smooth, quiet movement without damaging the oven chamber.

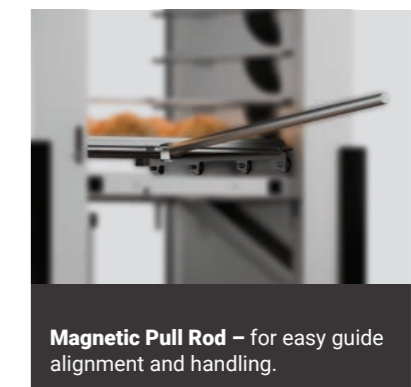

**OEM Customization** – customizable visual design for OEM partners.

**Guide Lock** – added safety inside the oven and on the trolley.

**Loading Modes** – full trolley (in-out) or single-tray loading.

**Magnetic Pull Rod** – for easy guide alignment and handling.

# Models
